Carrier Objective

A highly motivated Frontend React Developer with a strong passion for building responsive and visually appealing web applications. Seeking an opportunity to leverage my expertise in React, modern front-end development practices, and UI/UX design to contribute to a dynamic team. Committed to delivering user-friendly interfaces and collaborating effectively to create seamless web experiences. Eager to apply my skills and continuously grow in a challenging environment. .

Technical Skills

- **Programming Languages** : JavaScript, Java, Python, C
- **Frameworks & Cloud Technologies** : Node.js, Express.js, React.js, Redux Toolkit, AWS, Tailwind CSS, HTML
- **Database & OS Technologies** : MySQL, MongoDB, Linux, Windows
- **Tools & IDEs** : Git, VS Code, Nginx, GitHub, JIRA, Selenium, Cypress, Docker, Kubernetes
- **Other Skills** : API Development, Authentication (JWT, OAuth), Web Scraping, Performance Optimization

Education

DVR & Dr.HS MIC College of Technology, BTech in Information Technology Dec 2021 – Mar 2025

- CGPA: 8.57/10

Sri Sarada Jr College, Intermediate, M.P.C Jun 2019 – Mar 2021

- Percentage: 94.2%

Project Experience

FreeUdemyCoupons Website (MERN) [LINK](#)

- Built a scalable MERN-based platform offering 1000+ free Udemy coupons, providing easy access to discounted online courses.
- Automated data extraction from multiple sources using Node.js web scraping, ensuring daily updates for fresh and valid coupons.
- Designed an intuitive UI with real-time search and advanced filtering, boosting user engagement by 40%.
- Optimized API response time by 50%, improving website performance and handling thousands of requests daily.

Technologies Used: NodeJS, ExpressJS, ReactJS, JWT, Tailwind CSS, HTML, MongoDB, REST API

Full Stack Blog Application (MERN) [LINK](#)

- The Project utilizes of react frontend and a Node.js backend,demonstrating proficiency in both client-side and serverside development.
- It supports Create,Read,Update and Delete Operations, allowing users to manage blog posts effectively.
- Incorporates JSON Web Token(JWT) authentication to ensure secure user access and data protection.
- The application features a RESTful API, facilitating efficient communication between the frontend and backend components.

• **Technologies Used:** Reactjs,Nodejs,Expressjs,MongoDB,JWT,Restful Api.

Course & Certifications

- **Introduction to MONGODB - MongoDB University** [↗](#)
- **AWS Cloud Architect - AWS Academy** [↗](#)
- **The Basics of Linux Command Line- Udemy** [↗](#)

Trainings & Workshops

***ICT ACADEMY(AWS Cloud Architect)
2024***

Aug-2024 to sept-

- Gained in-depth expertise in AWS core services, including S3, EC2, VPC, RDS, and Elastic Load Balancing, to build scalable cloud architectures.
- Configured secure network infrastructures using AWS VPC, gateways, and Route 53, enhancing DNS management and traffic routing.
- Implemented Infrastructure as Code (IaC) with AWS CloudFormation, ensuring automated and efficient resource provisioning.
